

- Introduction to Computer Network
- Types of computer network
- Network Devices
- Transmission Media
- Topologies
- OSI Reference Model
- TCP/IP Model
- IP Addressing
- Subnet Masking
- Types of Casting
- CIDR
- VLSM in CIDR
- MAC Address
- Introduction and Installation of CISCO Packet Tracer
- Introduction to Router
- Internal Components of Router
- Router Interfaces
- Routing Protocols- Static and Dynamic
- Routing Protocol Configuration in CISCO Packet Tracer
- RIP (V1 and V2), OSPF, EIGRP, Redistribution
- Introduction to Switch
- STP
- RSTP
- VLAN & Trunks
- VTP
- Inter VLAN
- Implementation of Switching Technologies
